Satellite radio provides variety and quality that are not available elsewhere--especially since there are no country radio stations in NYC. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I deserve. Since Clearwater owns many of the radio stations throughout the United States I know that they would be the ones to benefit the most from limiting satellite radio and the choices available.
